

Step 1

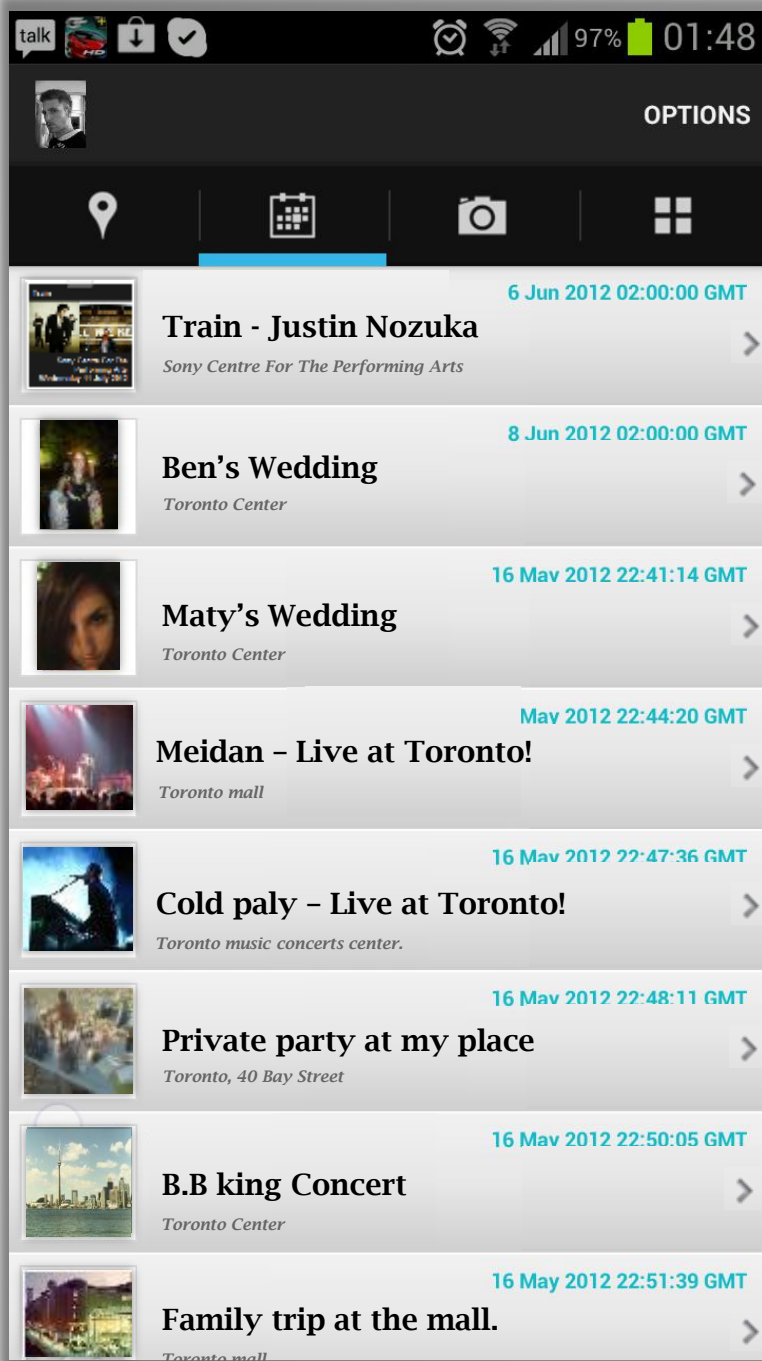

Pic a place

Where are you?

The application detects your location. 

You are suggested to select where you are right now, from a list of places near by.

Step 2

Pic an EVENT

What are you doing?

You can see the events around you and which are taking place right now.

Select the event you are at.

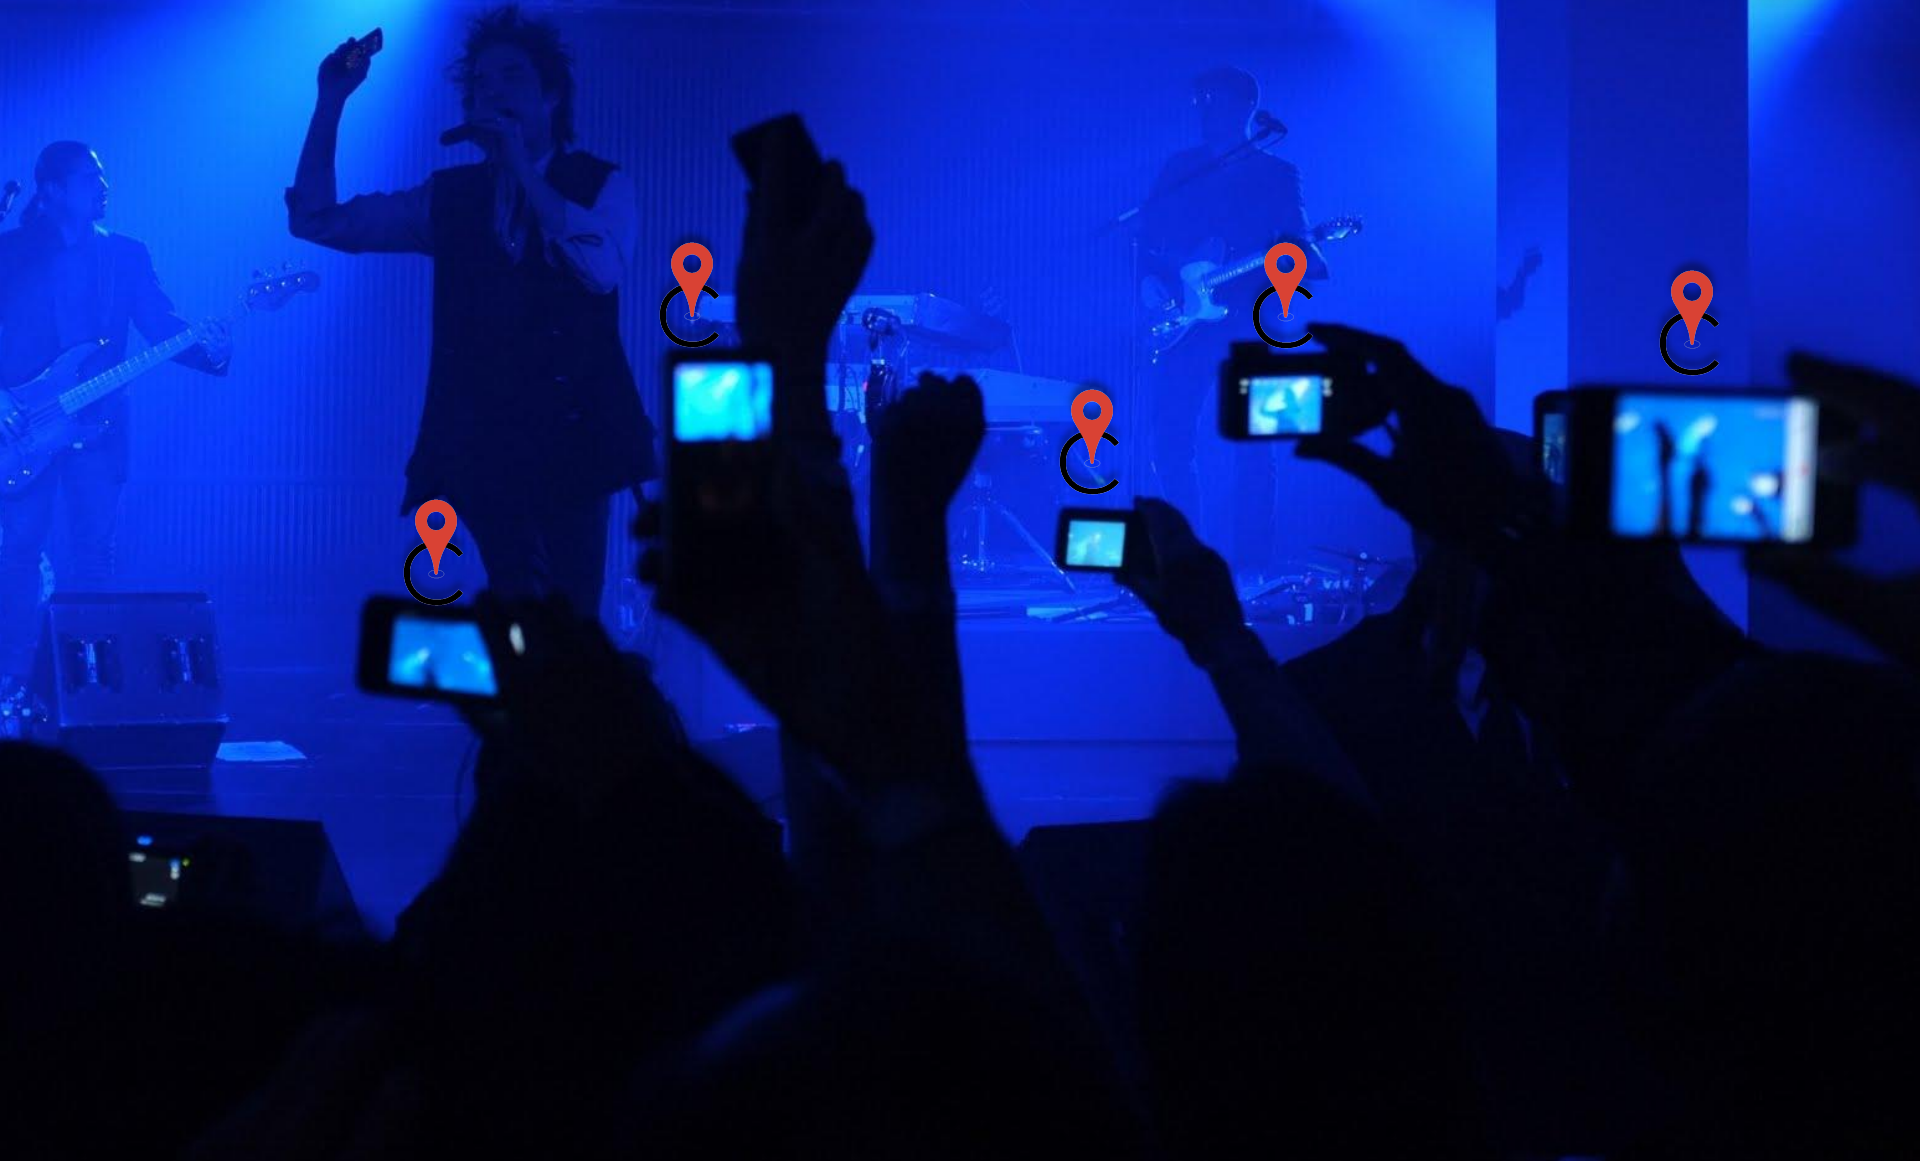

All the pictures that you and the other participants are uploading will be saved to this same event.

Take your pictures,

while others are doing the same!

**Watch the event
pictures**

not just your own!!!
